

The tables below compare two samples:

- Sample High is a sample from postcode range 2140-2190 and is used to represent students from a community with a high percentage of people born overseas
- Sample Low is a sample from postcode range 2749-2774 and is used to represent students from a community with a low percentage of people born overseas.

The data used in the tables below were taken from the 2008 CensusAtSchool Random Sampler. Each sample consists of 80 students, both male and female and at all year levels.

Variation will occur between samples taken from the Random Sampler and you can expect data from each random sample to be different from any other sample.
